## PROJETS

### ALHOUDA - HTML, CSS, JavaScript, React.js, Node.js, MongoDB

Alhouda is an innovative platform that offers a comprehensive Islamic experience. Users can listen to Quran audio, read the Quran, and explore the Sira Nabawiya, all within a beautifully designed interface. Additionally, the project provides access to various Islamic PDF books, making it a valuable resource for those seeking to deepen their understanding of Islam.

### Movietime - HTML, CSS, Bootstrap, JavaScript, PHP, MySQL

provides information about movies, TV shows, actors, directors, and other industry professionals and casual viewers alike. It offers a wide range of information, including plot summaries, cast and crew details, user ratings, reviews, trivia, and more.

### ECOURSES - HTML, CSS, Bootstrap, PHP, MySQL

I developed a platform to simplify access to free courses by redirecting users to Udemy. you can access the course content directly through their platforms or websites to make learning more accessible.

## CERTIFICATES

- Responsive Web Design ( freeCodeCamp )
- Algorithms Analysis and Design from scratch ( Cloud Native Base Camp )
